JADE SORIANO

BACKEND ENGINEER

Philippines (UTC+8) | Open to Remote Work | Flexible Timezone

jadesiguasoriano@gmail.com | jadessoriano.lovable.app | github.com/jadessoriano

SUMMARY

Backend Engineer with over 3 years of experience building scalable web applications using PHP and Laravel. Experienced in remote collaboration, async communication, and working with distributed teams across different timezones. Skilled in secure system development, RESTful APIs, and database optimization. Proven ability to mentor developers and deliver high-quality solutions independently with minimal supervision.

PROFESSIONAL EXPERIENCE

Backend Engineer — Aug 2024 — Feb 2026

Betrnk Tours Inc. — *BGC Taguig, Philippines*

- Designed and developed a digital wallet system enabling secure transactions and real-time balance management
- Implemented security measures including encryption, fraud detection, and secure API authentication
- Mentored junior developers through code reviews, pair programming, and technical guidance
- Optimized database queries and API performance using caching strategies

Laravel Developer — Mar 2024 — Jul 2024

ThinkBIT Solutions — *Full Remote*

- Worked fully remote with a distributed team using async communication tools (Slack, Jira, Git)
- Upgraded and modernized legacy Laravel applications to newer framework versions
- Refactored outdated codebases to follow current Laravel conventions and design patterns
- Conducted code audits to identify vulnerabilities and implemented security patches

Jr. Software Developer — Jul 2022 — Feb 2024

Halcyon Digital Media Design Inc. — *Pasig City, Philippines*

- Developed and maintained web applications using PHP and Laravel framework
- Built RESTful APIs to support frontend applications and third-party integrations
- Collaborated with UI/UX designers to implement responsive interfaces using Vue.js
- Wrote unit tests and performed debugging to ensure code quality and reliability
